

REMARKS

Entry of the foregoing preliminary amendment prior to the substantive examination of this application is respectfully requested. By the foregoing preliminary amendment, the original PCT claims have been reformatted to comply with US claims practice, multiple dependencies have been eliminated, and grammatical and typographical errors have been corrected. Additionally, new claims 6-10 have been added to afford the applicant the breadth and scope of patent protection to which he is entitled. The amendment clearly does not add any new matter to the application, and is not being submitted in response to any Office Action.

The examiner is hereby requested to telephone the undersigned attorney of record at (972) 516-0030 if such would expedite the prosecution of the present application.

Respectfully submitted,

SMITH IP SERVICES, P.C.
